NURSERIES AND NURSERYMEN LICENSES AND REGULATION

Sections 3-1201 to 3-1217, Inclusive

3-1201. SALES OF NURSERY STOCK--INSPECTION--FEE.

- (1) A person who sells or delivers any nursery stock not previously inspected under this chapter shall notify the department of agriculture of the sale or delivery. The department, after receiving the notice, shall inspect the nursery stock as soon as practicable. If the nursery stock is free from diseases and pests, the department shall so certify and shall attach a certificate of inspection to each lot or bill of nursery stock inspected.
- (2) The department may designate certain places as quarantine stations where all nursery stock brought into the state shall be inspected and disinfected.
- (3) If any nursery stock is diseased or infested with any of the pests mentioned in section 3-1301, the department shall order its disinfection or destruction together with all boxes, wrapping, or packing. If the department has ordered the destruction of any nursery stock, it shall notify the owner who may appeal to the director of agriculture before the destruction. The director's decision concerning the disposition of the nursery stock is final.
- (4) The department shall fix by rule, after a hearing, the charges for disinfecting, fumigating, and inspecting nursery stock.
- (5) Notice of the hearing on the proposed charges shall be published once in three (3) newspapers of general circulation in this state. The charge for inspecting each carload of nursery stock is ten dollars (\$10) or a proportionate sum fixed by the department for less than carload lots.
- (6) The department shall collect all fees required by this section and may not give a certificate of inspection until the fees are paid.

3-1201.1 DEFINITIONS. UNLESS THE CONTEXT REQUIRES OTHERWISE, IN THIS CHAPTER:

- (1) "Person" means a person, firm, or corporation.
- (2) "Seasonal nurseryman" means a person engaged in the business of selling, dealing in, or importing into the state for sale or distribution, any nursery stock which is for sale only during certain growing seasons and whose place of business is open only during certain growing seasons and not continuously throughout the year.
- (3) "Nursery stock" means botanically classified hardy perennial or biennial plants; trees; shrubs; vines; plants, either domesticated or wild; cuttings; grafts; scions; buds; bulbs; rhizomes or roots of them; and other plants and plant parts for, or capable of propagation. The term does not include vegetables, field, or flower seed, or corns and tubers.

3-1201.2 REQUEST FOR INSPECTOR'S SERVICES--COSTS--CERTIFICATE OF INSPECTION.

Any person may request, upon the payment of actual costs to the department, the services of a horticultural inspector to inspect and certify plant products. Subsequent to inspection such horticultural inspector may issue to the person a certificate of inspection signed by him covering any plant product in compliance with rules of the department.

3-1202. DEPARTMENT RULES AND ORDERS.

Every person in charge or control of nursery, orchard, storeroom, packing house, or other place where horticultural products or supplies are handled or kept shall comply with the rules of the department and shall disinfect or destroy diseased or infected nursery stock or other horticultural supplies or products when ordered so to do by the department.

3-1203. DUTY TO NOTIFY DEPARTMENT OF INFECTION.

The owner or manager of an orchard, nursery, storeroom, packing house, or other place where horticultural products or supplies are kept or handled, which becomes diseased or infested with any injurious insect or pest, immediately upon discovery of the existence of the disease or pest, shall notify the department. The owner or manager, at his expense, shall comply with the instructions of the department for the eradication of the disease or pest.

3-1204. REMOVAL OF INFECTED TREES--ASSESSMENT OF COSTS.

If a person owning any orchard or nursery stock infected or infested with any injurious insect pest or disease and which becomes a menace to the agricultural or fruit industry, or a menace to ornamental trees, shrubs, plants, or vines fails to comply with the instructions of the department for the destruction or control of the injurious insect pest or disease, or the destruction of the infested or infected orchard or nursery stock within the time specified by the department, the department may condemn, remove, or destroy the orchard or nursery stock or treat it with a proper remedy. If an owner fails to pay the cost of the removal, treatment, or destruction within thirty (30) days after notice has been mailed to the owner at his last known post-office address, the cost shall become a lien on the land of the owner and shall be added by the county treasurer to the taxes upon the property and collected as other taxes.

3-1205. PROHIBITION AGAINST DELIVERY OF UNINSPECTED NURSERY STOCK.

A person may not receive or deliver any nursery stock unless a certificate issued by the department is attached to the nursery stock.

3-1206. NOTICE TO DEPARTMENT OF SHIPMENT OF NURSERY STOCK.

A person licensed to do business under this chapter shall notify the department of his intention to ship nursery stock not previously inspected in accordance with this chapter to any point in this state. The notice shall contain the name and address of both the consignor and consignee, the list of the goods to be shipped, the freight or express office at which the goods are to be delivered, and the name or title of the transportation company from whom the consignee is to receive the goods. The notice shall be mailed at least five (5) days before the day of shipment.

3-1207. PROHIBITION AGAINST RECEIVING UNINSPECTED NURSERY STOCK.

A person who receives and accepts any nursery stock that has not been inspected by the department shall, before using or disposing of the nursery stock first notify the department and give it an opportunity to examine and, if necessary, fumigate the nursery stock.

3-1208. REPEALED.

3-1209. RIGHT TO HOLD NURSERY STOCK FOR INSPECTION.

(1) Before it is packed for delivery, all nursery stock grown or growing in this state and used for filling orders shall be inspected by the department. The nursery stock shall be disinfected by fumigating or other method, when considered necessary by the department. If the nursery stock is clean and free from insects and fungi pests, the department shall issue a certificate to the nurseryman. The certificate shall entitle the nurseryman to use that stock for filling orders for current delivery. The certificate shall be furnished at a price not exceeding forty cents (\$.40) per hundred.

(2) Nurseries shall give the department five (5) days' notice of the time when the stock will be ready for inspection.

3-1211. TRANSFERRED.

3-1212. LICENSE REQUIRED OF NURSERYMEN--APPLICATION AND PAYMENT OF FEES.

(1) A person, before engaging in the business of selling, dealing in, or importing nursery stock into this state for sale or distribution; or acting as agent, salesman, or solicitor for any nurseryman or dealer in nursery stock; or soliciting orders for the purchase of nursery stock must obtain a license for each place of business from the department. A person may not falsely represent that he is an agent, salesman, solicitor, or representative of any nurseryman or dealer in nursery stock.

(2) The department shall provide application forms for prospective licensees. Applications for licenses may be made at any time before engaging in business, except seasonal nurserymen must make application at least thirty (30) days in advance of doing business in this state.

Licenses, except seasonal nurserymen's licenses, shall bear the date of issue and expire July 1 next following the date of issue. Seasonal nurserymen's licenses shall bear the date of issue and expire on the date provided on the license by the department.

(4) The license fee is fifteen dollars (\$15) a year for a general nursery, dealing in all kinds of nursery products; ten dollars (\$10) a year for a nursery dealing in small fruits, ornamental shrubs, bulbs, and perennials; five dollars (\$5) a year for a nursery dealing in bulbs and perennials only; and fifteen dollars (\$15) a year for seasonal nurserymen. Agents, salesmen, and solicitors for licensed nurseries shall be granted salesmen's licenses, free of charge, upon the request of the licensee.

3-1213. RENEWAL OF LICENSE.

A licensed nurseryman or dealer in nursery stock who has complied with this chapter is entitled, upon the expiration of his license to have the license renewed. The license shall be renewed upon payment of the proper fee.

3-1214. GROUNDS FOR REFUSAL OR REVOCATION OF LICENSE.

The department may refuse to issue a license or it may revoke a license under this chapter when:

(1) The person has been adjudged bankrupt, insolvent, or guilty of fraud or deceit by a court of competent jurisdiction; or

It shall be unlawful for any person to falsely represent or to misrepresent the name, age, variety, or class of any nursery stock sold or offered for sale, or to falsely represent or state that any nursery stock offered for sale, sold, or delivered was grown in or came from a certain nursery or locality, when in fact such nursery stock was grown in or came from another location, or nursery, or to deceive or defraud any person in the sale of any nursery stock by substituting inferior or different varieties or ages from those ordered, or to wilfully or intentionally bring into this state, or to offer for sale or distribution within this state, or to ship, sell or deliver upon any sale any nursery stock that is infected or infested with any disease or insect, dangerous to the horticultural interests of the state, and in case of such misrepresentation, false representation, deceit, fraud, or substitution, shall be subject to punishment as provided by the statute for misdemeanor, and shall be liable to the person, firm, or corporation damaged or injured thereby, the amount of all damages sustained to be recovered in a civil action in any court of competent jurisdiction.
